## PRODUCT OVERVIEW

S380A

**Long Haul Steer** // Over the highway all-position radial designed for steer position.

- »» The S380A features a 19/32nd tread and is designed for over the road highway use.
- »» 6 rib tread pattern and decoupler groove promote even wear and high removal mileage.
- »» Intermediate groove stone ejection system prevents stone retention, leading to longer casing life.

S360

**Regional All Position** // Short haul, local delivery, all position service.

- »» All purpose, 18/32" tread pattern provides good mileage and abrasion resistance in all-position service.
- »» Stone ejection system reduces stone retention and casing penetration.
- »» Multi-service tread compound provides good mileage and cut and tear resistance.

D450

**Regional Drive** // Long or short haul, on/off highway, drive axle.

- »» Innovative tread pattern that has proven superior in reducing stone retention.
- »» Open shoulder design provides excellent traction.
- »» Advanced tread compound for long original mileage.

D460

**Long Haul Drive** // Tandem drive axle for long and short over-the-road use.

- »» Innovative tread pattern minimizes stone retention providing excellent retreadability.
- »» Closed shoulder tread design promotes even tread wear.
- »» Advanced tread compound for long mileage.

LMT350

**19.5" Regional All-Position** // Regional hauling and on/off-road, all-position Commercial duty light trucks

- »» Tread compound designed to provide long tread life in regional applications
- »» Patented innovative groove technology leads to minimum stone retention, extending casing life.
- »» Tread pattern designed for excellent wet traction and reduced noise.

LMT450

**19.5" Regional Drive** // Regional hauling and on/off-road; drive axle.

- »» Innovative tread pattern minimizes stone retention providing excellent retreadability.
- »» Open shoulder design for excellent traction.
- »» Advanced tread compound for long mileage.

MSL

**Regional All-Position** // Regional hauling and on/off-road; all-position.

- »» Multi-service tread pattern provides good mileage on-highway and traction in off-highway services.
- »» Thick undertread resists casing penetration and damage for multiple retread opportunities.
- »» Cut and tear resistant tread compound provides excellent on/off highway services.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

All AmeriSteel products are proudly produced right here in the USA.
