About BestDrive

BestDrive Commercial Tire Centers specialize in providing fleet customers with innovative tire solutions including:

- Award winning Continental and General Tire Brand products
- ContiTread™ “Looks like new, run likes new” Retread solutions
- A wide array of multi-brand truck tires to address all market segments
- Innovative commercial solution products such as ContiPressureCheck™, ContiConnect™, and VDO Roadlog

Why BestDrive

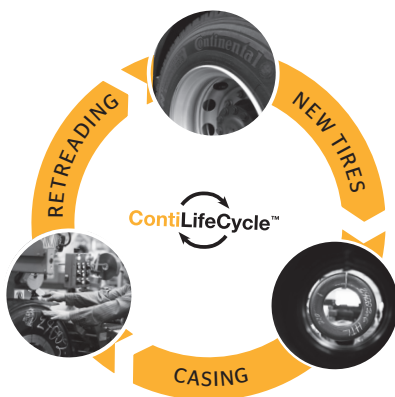

Our goal is to be the leading commercial tire and service provider while delivering the Lowest Overall Driving Cost for our customers. We leverage our competitive advantages:

- World class employees
- Total fleet tire management
- Innovative solutions
- National coverage
- Strong fleet relationships
- TIA Trained Technicians

ContiLifeCycle™

BestDrive is proud to be a ContiLifeCycle™ partner with Continental. One of the largest automotive suppliers and tire manufacturers in the world, Continental develops pioneering technologies to make your fleet safer, more efficient, and more connected. With innovative tire technology and digital fleet solutions, Continental optimizes your tire lifecycle management. ContiLifeCycle™ prolongs the life of your tires to lower your tire costs.

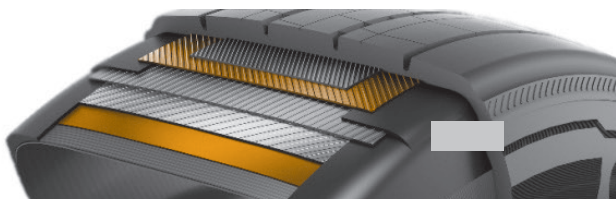

New Tires

Continental develops commercial tires that suit each fleet's unique needs. Built with perfectly matched reinforcements, compounds, and tread patterns that best suit the application, Continental tires are specifically designed for outstanding performance.

Casing

Continental's 3G Casing offers a next-generation solution for easier casing management and maximum retreadability. The innovative casing design reduces deflection and heat buildup and promotes optimal mileage via a wide tread platform. It is optimized for retreadability, with tighter belt cord angles to help reduce heat buildup and penetrations, protecting the casing.

Retreading

Continental's premium retread solution, ContiTread™, offers many treads matching the original Continental tire, so your retreaded tire "looks like new, runs like new!" When you purchase a retreaded tire, you not only lighten your tire budget but also help to protect the environment. Reusing the casing saves energy and raw materials, and multiple use of the casing also reduces the number of old tires in circulation.

Tire Offerings

Passenger/Light Truck Tires

For any surface and every season, there's a Continental tire that delivers superior performance and unparalleled safety for consumer vehicles.
